PREFACE The PREFACE

Des Editions Précédentes.

QUOI qu'il paroisse difficile de parler à l'avantage d'un Abbrégé, cependant cet Epitome ne manque pas de raisons pour se rendre recommandable : Car excepté les Phrases, qui ne servent qu'à illustrer le sens des mots, il a tous les Avantages que le Public a bien voulu remarquer dans mon *DICTIONNAIRE ROYAL in Quarto* ; sur tout les différentes Acceptions des Termes, expliquées séparément & près de cinq mille Mots qu'on ne trouvera point dans aucun autre Dictionnaire Anglois & François ; & de plus les Accens marquez sur les Mots Anglois : Pour en faciliter la Prononciation aux Etrangers.

L'*ACCENT* est ou l'Elevation ou la cheute de la voix, ou un son remarquable d'une des Syllabes des Mots que nous prononçons. Il y a trois Accens, l'Aigu (´), Le Grave (`) & le Circonflexe (^).

L'*Accent Aigu* marque l'elevation de la voix dans ces Mots admirable, contrary, Contributor, &c.

L'*Accent Grave* marque la cheute, ou l'abbaissement de la voix, comme dans ces Mots, adjure, add, conjure, &c.

L'*Accent Circonflexe* est composé des deux autres, & marque l'Elevation & la cheute de la voix dans même Syllabe, comme dans ces Mots contrive, backbite ; mais remarquez que la difference entre l'*Accent Grave* & le *Circonflexe* est si petite & si peu sensible en Anglois, que nous avons trouvé à propos de n'employer que le seul *Accent Grave*.

Vous devez aussi remarquer que quelques Mots ont divers Accens pour exprimer leurs différentes Significations : Ainsi le Mot Anglois, confident, avec un Accent aigu sur l'Antepenultième, est un Adjectif qui signifie seur, certain, hardi, effronté. Mais confident, avec un Accent aigu sur la dernière syllabe, est un Substantif qui veut dire un confident, un depositaire des secrets de

To Former Editions.

THOUGH it may seem a difficult matter to speak in favour of an Abbridgment ; yet this Epitome does not want Reasons to recommend it self : For excepting those Phrases which serve only for Illustration, it has all the Advantages which the Publick have been pleased to find in my *ROYAL Quarto DICTIONARY*, chiefly the different Acceptations of Terms distinguished and explained, with near 5000 Words not to be met with in any other French and English Dictionary ; and the additional Accenting of all English Words, in order to facilitate their Pronunciation to Strangers.

The *ACCENT* is either the rising or falling of one's Voice, or a remarkable founding of one of the Syllables of the Words we pronounce. There are three Accents, viz. the Acute (´), the Grave (`), and the Circumflex (^).

The Acute denotes the Elevation of the Voice in the Syllable that bears it ; as in these Words, admirable, contrary, contributor, &c.

The Grave marks the Falling or Depression of the Voice, as in these Words, adjure, add, conjure, &c.

The Circumflex is a Compound of the other Two, and marks the Elevation and Falling of the Voice in the same Syllable, as in these Words, contrive, backbite : But Note, that the difference betwixt the Grave and the Circumflex is so very small, and so unheeded in English, that we have thought fit to make use of the Grave only.

You must also take notice, that some Words have different Accents to express different significations. Thus Confident, with an Acute on the Antipenultima, is an Adjective, which signifies sure, or bold, and in French, seur, certain, hardi, effronté. But Confident, with an Acute in the last Syllable, is a Substantive, expressing a Trusty Friend,

quelqu'un. Et de même *to conjure* signifie *conjur*er, *supplier* ; au lieu que, *to conjure*, veut dire, *Ufer de sortileges*, *évoquer les Esprits*.

Lors que vous trouvez deux *ee*, ou deux *oo* avec deux Accens, (de cette manière *ée*, *óó*) c'est une marque que ce sont des Dipthongues, la première desquelles se prononce comme la Voyelle *i*, en *François*, & l'autre comme la Dipthongue *Françoise*, ou, comme dans ces Mots *Agréé*, *Cóóper*, qui selon la Prononciation *Françoise* se prononcent, *Agri*, *Couper*. Mais lors qu'il y a deux *ee* ou deux *oo*, qui n'ont qu'un Accent, en ce cas la *ee* ou *oo*, ne sont point Dipthongues, mais appartiennent à deux syllabes, & se doivent prononcer séparément, comme dans ces Mots, *Re-é-ter*, *co-órdinate*, &c.

Enfin, remarquez que quelques Mots *Anglois* ont deux Accens comme *Coóperá-tion*, &c.

and in French, un *Confidént*. And thus, *to conjure* signifies *to intreat*, in French, *conjur*er, *supplier* ; whereas *to conjure*, signifies *to use Witchcraft*, in French, *user de sortileges*, *évoquer les Esprits*.

When you find a double *ee* or *oo* with two Accents (thus *ée*, *óó*) it shews that they are Dipthongs, the first of which is to be pronounced like the French Vowel *i*, and the other like the French Dipthong *ou*, as in *Agréé*, *Cóóper* ; which, according to the French Pronunciation, must sound *Agri*, *Couper*. But when there comes a double *ee* or *oo*, having but one Accent, then the *ee* or *oo* are no Dipthongs, but belong to two Syllables, and must be pronounced separately, as in *Re-é-ter*, *Co-órdinate*, &c.

Lastly, Note, that some English Words have two Accents ; as, *Coóperá-tion*, &c.

A V E R T I S S E M E N T touchant cette Edition.

LA cinquième Edition de cet *Abbrégé* a été revue avec soin par l'Auteur, qui outre la Correction de plusieurs Fautes d'Impression essentielles, qui s'étoient glissées dans l'Edition précédente, a ajouté plus de 600 Mots nouveaux à la Partie *Angloise*, et environ autant à la *Françoise*.

A D V E R T I S E M E N T about this Edition.

THE Fifth Edition of this *Abbridgment* has been carefully revised by the Author ; who, besides the correcting of several material Errors that had crept into the former Impression, has added above 600 new Words in the English Part, and about as many in the French.

A

A B A

A The first Letter of the Alphabet in all Languages, and first of the Five Vowels.

† Il ne fait ni A ni B, He knows not A from B, he is a meer Ignoramus.

A is sometimes an Article, which denotes the Dative Case either Singular or Plural. Ex. à Pierre, to Peter: à l'Homme, to the Man; à eux, to them.

Sometimes it signifies the Duty.
